

## PROFILE

My name is Jade Urban, and I hold both an Associate of Science in Nursing (ASN) and a Bachelor of Science in Nursing (BSN). I began my career in the medical field as a dialysis technician and progressed to the role of dialysis nurse, dedicating over ten years of service to this specialty. I am passionate about continuous learning, which I believe is essential for personal and professional growth. I actively seek opportunities to enhance my skills in communication, critical thinking, organization, efficiency, and adaptability. To avoid stagnation in my development, I remain open to new challenges and experiences.

## Registered Nurse

### EDUCATION

#### **University of Tennessee**

August 2018 – July 2019

Obtained my Bachelor of Science in nursing, graduating with honors.

#### **Pellissippi State Community College**

January 2015 – May 2018

I earned my Associate in Applied Science in Nursing while consistently maintaining a position on the Dean's List. Additionally, I received a Nursing Merit Award during my first year in the nursing program.

### WORK EXPERIENCE

#### **Fresenius Medical Care Acutes- Registered Nurse**

September 2020- Current

In my role within the acute hospital setting, I am responsible for initiating, monitoring, and terminating hemodialysis treatments for patients. Additionally, I coordinate patient care in collaboration with interdisciplinary teams throughout the hospital. During my tenure, I have also developed competencies in peritoneal dialysis and plasmapheresis.

#### **DaVita- Registered Nurse**

August 2018–September 2020

I initiated, monitored, and terminated hemodialysis treatments for patients requiring dialysis. My responsibilities included conducting thorough assessments, administering medications, and monitoring for complications during treatment. I also oversaw the review of monthly lab results and communicated critical values to the nephrologist. Additionally, I directed patient care technicians, ensuring the safety of up to twelve patients simultaneously, and engaged in clinical decision-making and anemia management.

#### **DaVita- Certified Dialysis Technician**

May 2014– August 2018

I served as a patient care technician for individuals undergoing dialysis treatments. In this role, I was responsible for monitoring water systems and ensuring proper machine setup for patient treatments. Additionally, I gained the ability to precept and successfully trained new technician hires.
